

Client Contributions: What You Need to Know

At Livable, we're committed to helping you live independently.

If you receive funding through the Commonwealth Home Support Programme (CHSP), the Australian Government requires providers to ensure participants contribute to the cost of their services. CHSP is an entry-level support program that helps older Australians remain independent and connected within their communities.

Why am I being asked to contribute?

The Government subsidises most of the cost and asks participants to make a contribution toward the services they receive.

We understand that everyone's circumstances are different and we are committed to making sure cost is not a barrier to accessing support.

We can support you by providing:

- Clear information about your contribution
- Flexibility if your financial situation changes
- A financial hardship process if you need assistance

Contact us at any time if you have concerns about your fees or your financial circumstances.
