<sup>^</sup> Service delivered by an Associated Provider

## What is an Associated Provider?

Under the Support at Home program, an associated provider is an organisation or individual that works in partnership with Livable to deliver some of your approved services. While an associated provider may deliver these services, Livable remains your main registered provider and continues to coordinate and oversee your care.

All associated providers are required to meet strict quality and safety standards and operate under formal agreements with Livable. This ensures your services are delivered safely, respectfully and in line with your individual care plan.
